🦀 Ghost Crab Night Mission

When the sun goes down, the beach comes alive with ghost crabs — pale, super-speedy little crabs!

1. Wait for dark & head out with a grown-up.
2. Bring a flashlight and shine it on the sand.
3. Watch them scurry — look, don't grab!
4. Count how many you can find. New record?

 **Slippy says:** Always wear sunscreen, swim with a grown-up, and if the water ever tugs you away from the beach — don't fight it. Float, wave your arms, and yell for help!
